

## Job Aid: Don a Mask

The mask may have ties or elastic. It may have a flexible metal strip that goes at the top of your nose.

1. Place the mask over your nose, mouth and chin.

Make sure the flexible metal nose piece is at the top of your nose.

2. Secure the mask to your head with the ties or elastic.

Put on the bottom tie or elastic first.

3. Tie the top tie or secure the top elastic.

4. Fit the flexible nose piece to the top of your nose. Adjust the mask to fit.
